This webinar will present the recently published Assessing Indirect Effects and Cumulative Impacts Under NEPA Practitioner’s Handbook (Number 12). The handbook and associated resource material are posted on the Center for Environmental Excellence website http://environment.transportation.org/center/products_programs/practitioners_handbooks.aspx

WHO SHOULD PARTICIPATE
Transportation professionals interested in learning about key elements of indirect effects and cumulative impacts, practical tips, and quick and easy access to environmental tools to help assessing indirect effects and cumulative impacts.

FORMAT
The webinar will include a presentation by Bill Malley of Perkins Coie LLP. The presentation will focus on practical tips for assessing indirect effects and cumulative impacts under NEPA. The webinar also will include a question-and-answer period with panelists including indirect effects and cumulative impacts experts from FHWA and a State DOT.

Panelist will include:
- Lamar Smith, ENV-TST Manager, FHWA Resource Center
- Tracy White, Office of the Chief Counsel, Eastern Legal Services Division, FHWA
- Cindy Adams, NEPA Delegation Manager, CALTRANS

Topics covered in this webinar will include:
- What is the difference between indirect effects and cumulative impacts?
- How should the geographic scope of the analysis be determined?
- What is the appropriate level of detail?
- What methodologies can be used?
- How should mitigation opportunities be considered?
- How should these analyses be documented in a NEPA study?
- How can the transportation planning process be used to support NEPA-level studies of indirect effects and cumulative impacts?
- What criteria should be used to evaluate the legal sufficiency of these analyses?

HOW TO REGISTER
Register up to the time of the webinar by going to: https://www1.gotomeeting.com/register/863649912

There is NO REGISTRATION FEE for the webinar.

After the LIVE event, the webinar will be available for viewing on-demand by visiting the Center website: http://environment.transportation.org
