CALL FOR **RESEARCH** PROPOSALS

TERI DATABASE

transportation and environmental research ideas

proposals are due by **June 2, 2017**

For more information and to submit your ideas, visit:
http://environment.transportation.org/teridatabase/

What is TERI?

The Transportation and Environmental Research Ideas (TERI) database is a central storehouse for tracking and sharing new transportation and environmental research ideas. The Center for Environmental Excellence by AASHTO maintains TERI and keeps all content current. Suggestions for new ideas are welcome from practitioners across the transportation and environmental community.

Examples of Past Research Proposals:

- A Guidebook for Communications between Transportation and Public Health Communities
- Integrating Climate Change and Extreme Weather Into Transportation Asset Management Plans
- Transferability of Post-Construction Stormwater Quality BMP Effectiveness Studies
- Quick Reference Guide for Traffic Modelers for Generating Traffic and Activity Data for Project-Level Air Quality Analyses
- Permeable Shoulders
- Coordination of Section 106 and Long Range Transportation Planning
