The Center for Environmental Excellence was developed in cooperation with FHWA to
- Promote environmental stewardship
- Encourage innovative ways to streamline transportation delivery

The Center is a resource for transportation professionals seeking
- Technical assistance
- Training
- Information exchange
- Partnership-building opportunities
- Quick-and-easy access to environmental tools

Many Products and Programs are developed through the Center, including:
- Best practice documents
- Reports
- Case law updates on the environment
- Peer exchanges and conferences

Summary of recent developments in research, links to research by topic, TERI database for proposed research, and relevant TRB Committees

Filter content by discipline: planning, design, construction, maintenance
