NAVIGATING NEPA TO ADVANCE MULTIMODAL TRANSPORTATION PROJECTS WEBINAR

TUESDAY March 1 1pm-2pm EST

Join us as we explore common challenges with multi-agency NEPA processes, including:

- Unique agency-specific program requirements
- Differing agency interpretations of NEPA requirements
- Anticipating which U.S. DOT agencies will have a major action
- Efficient coordination among agencies
- Securing funding for multimodal NEPA studies

Join us for an interactive webinar to explore the results of NCHRP 25-43, Navigating Multi-Agency NEPA Processes to Advance Multimodal Transportation Projects. This recently completed research identifies a handful of challenges that transportation agencies typically face when carrying out a NEPA process involving more than one U.S. DOT agency. The research team investigated these challenges by developing 12 case studies, identifying strategies used, cross-cutting themes and lessons learned.

During this webinar, participants will be provided with a brief overview of the research project and hear first hand about two of the featured case studies from state DOT representatives. Presentations will be followed by Q&A with the web audience.

Featured Speakers:
Don Emerson, WSP | Parsons Brinkerhoff
NCHRP 25-43 Results
Heather Wills, FHWA, previously Oregon Department of Transportation
Columbia River Crossing Project
David Bricker, California Department of Transportation
XpressWest Project
