This webinar will cover:

- Efforts to identify innovative linear BMPs that fit well in transportation corridors
- Importance of infiltration and current research to support use of roadway embankments as a BMP
- Winter storm management BMPs and technologies
- Measuring winter storm BMP performance and addressing TMDL and regulatory issues
- Open Graded Friction Course (OGFC) as a BMP
- Performance and uses of OGFC

The AASHTO Center for Environmental Excellence provides the Stormwater Community of Practice (CoP) forum for Department of Transportation (DOT) stormwater practitioners to discuss current and emerging issues in stormwater management and the development and implementation of NPDES programs. Outcomes of the CoP collaboration focus on information sharing, improving DOT implementation of stormwater programs through webinar panel discussions, and question/answer sessions. The topic discussion on DOT Effective and Innovative BMPs will be led by speakers from DOTs across the country.

Who should attend?

- DOT Stormwater Program Managers and Practitioners
- DOT Transportation Engineers, Construction, and Maintenance staff with stormwater responsibilities
